

HAS-BEENS STAR
ON BALL FIELDOld Timers Are Coming
Back Strong and Show-
ing the Fans.

Have you noticed what a noise some of the has-beens have been making in the major leagues this year?

Well, Pat Moran has, and Pat advocates the retention of seasoned players, for he believes that in many cases they are twice as valuable as the younger phenoms, who come into the big show as a gamble.

Moran showed his preference for the veteran player when he purchased Frank Schulte from the Pirates, after Schulte was called for the minors. And you'll notice that Pat has his club in the race. Garry Cravath was called back by Moran after he had been told goodbye by the fans in the big leagues, and Garry's stickwork this year has proved that Moran knew what he was doing.

Miller Huggins surprised everybody when he signed Bobbie Wallace and Chief Bender's comeback was quite unexpected.

If The Waiters Treated Orders As The Senators Treat Bills

By Tad

GEORGIA STAR
STILL LEADINGTiger Cobb Heads Ameri-
can League by Big Per-
centage in Hitting.

Chicago, Ill., Sept. 8.—American league averages ended today, including games of Wednesday, show Ty Cobb leading the league in batting, with a mark of .356, indicating that he will pass the 200 mark again, topping the list in two base and three base hitting, second in scoring and fourth in base stealing.

The Georgia star has accounted for 237 in 230 games Cobb has driven out 24 doubles, 23 triples and five home runs.

Bush has scored 93 times as compared with 92 for Cobb. Both of Cleveland, the leading base stealer, has 42 to his credit.

Leading hitters who have participated in more than half of their club's games: Cobb, Detroit, .356; Slater, St. Louis, .352; Kelly, Cleveland, .350; Felsch, Chicago, .348; Lewis, Boston, .347; Harris, Cleveland, .346; Chapman, St. Louis, .345; Philadelphia, .343; Veach, Detroit, .341; Rice, Washington, .338; McNamara, Philadelphia, .337.

Leading pitchers, participating in 25 or more games, rated according to earned runs per game:

G.	W.	L.	E.R.
1	10	3	1.13
2	10	3	1.13
3	10	3	1.13
4	10	3	1.13
5	10	3	1.13

Shaw Leads Western.
Shaw, of Omaha, maintained a 10 point lead over Jones, of Wichita, for batting honors in the western league with an average of .321. Adams, Hutchinson, is leading pitcher.

HURLER ZAMLOCH
IS OUT OF GAME

Butte, Mont., Sept. 8.—Carl Zamloch, for seven years a baseball pitcher, has quit the game and has become a salesman for a meat packer. Zamloch fractured his right leg playing ball in Butte in 1915 and as it was the third break he has sustained he decided to quit.

Zamloch started with Sacramento in 1912 and in 1914 was with the Detroit Tigers. Calland of the Pacific Coast league sold him to Spokane early this year.

FUTURITY RACE
AT PARK TRACKCrack Races Are Entered in
Futurity Stakes Event at
Belmont Park.

New York, Sept. 8.—At the Belmont Park race track, today the classic futurity stakes, for two year olds will be run over the straight six furlong course. Thirteen colts and fillies were named overnight as starters, and the value of the race this year will be about \$20,000. Of this sum nearly \$15,000 will go to the winner. While this is scarcely half the sum won by Sun Brier when he beat a great field in the Hopeful stakes on the closing day of the Saratoga meeting, the honor of winning a futurity winner makes the event the greatest two year old contest of the racing year.

Following is a list of the probable starters, their owners, weights and jockeys:

Horse	Owner	Jockey	Weight
1	10	3	1.13
2	10	3	1.13
3	10	3	1.13
4	10	3	1.13
5	10	3	1.13

CITY LEAGUE
BOOTS AND BINGLES

(Continued from previous page)

percentage column, as the Western line is very near the Feldman percentage, while the latter club in turn is not so far behind the league leading Bakers.

One thing that should be worth the money Sunday will be to see Buster Gillett on the mound against the Purdy team. The Bakers have not defeated the speedy right hander this season, as it has meant a row of goose eggs to the Purdy players when they faced the young Feldman twirler. Gillett has been on a vacation for the past few weeks, but will be back in uniform and ready to pitch against his old rivals according to reports emanating from league headquarters.

Three of the outstanding features of last Sunday's card were the pitching of Campbell and Soto, and the comeback of the rejuvenated Weston club. Campbell, hastily obtained from the 21st regular infantry regimental team, put up the game of his life in allowing the Bakers but two hits until the ninth inning, while Soto worked as hard with good support. The Weston team has been greatly strengthened during the past two weeks, and their excellent fielding and hitting, particularly that of Morton, was a matter of seven days wonder.

NEW TWIRLER IS GOING.
Harry Gardner, from out of the defunct Northwestern league, broke into the Coast circuit, pitching for Portland by substituting the hard hitting San Francisco team with eight scattered hits. Gardner is the pitcher Star Lake refused to accept from Lincoln last fall after a short trial.

WALT JOHNSON
SAVES HIS ARMPremier Senator Hurler
Fools Fans by Reserving
His Strength.

Many a baseball fan is wondering if Walt Johnson is moving his rusty pitching arm in anticipation of being sold to some other club before the season of 1918 rolls around.

The famous speed-ball merchant, who for a number of years has held the place once occupied by E. W. Wood, as the speediest pitcher in the game, has not been using the "smoke ball" as frequently this season as in the past. Instead he has resorted to a slower curve ball and the change has been so noticeable as to cause comment all around the American league.

Playing with a losing club is discouraging at best and the record for 1917 show that the Washington Senators have been anything but good transmitters for any of their pitchers. Perhaps the smoke ball artist figured that he owed it to himself and the club to nurse the wonder pitching arm along during a season when pennant chances were out of the question. At any rate, the battering of the arm during the season was not as frequent this year as they did in past seasons when Johnson took the mound.

DISCUSS RATIO
OF GOLF PUTTS

Women Golfers Experience
Difficulty in Making the
Course in Short Time.

Discussion as to the recent playing of Mrs. W. A. Gavin for the metropolitan women's golf championship has caused the question to arise as to what is the ratio of strokes for women as compared to men. In going around for 18 holes.

Just because Mrs. Gavin and other feminine golfers make an 83 or thereabouts on the average course, while Goumel, Traveler and others are going around in 72, does not mean that the ratio is 75 to 83. It must be taken into consideration that on every course in the world there are a few women who drive from trees that reduce considerably the distance to the green.

On some courses this may not necessarily amount to a great deal, but in difficult rounds like those at Golden City, Hike Barn, Balmoral and others, it results in a great difference. Matches staged on those courses with both men and women driving from the same hole would mean that the average stroke allowance the men give to the women would be much higher than generally supposed.

The trouble has been that in such matches the short time has been used. This year, however, the women have been given the decision of the course to degree of finality whatever. Women fear long tees.

Trapshooting

BY PETER CARNEY.

DESPITE the fact that guns and powder are necessary requisites of trapshooting, the sport is singularly free from accidents, in this respect far in advance of football, baseball, golf or even tennis.

The reason for the absence of accidents is the fact that the very first thing impressed upon the mind of a new shooter is that the careless handling of a shotgun is exceedingly dangerous both to users and those near or within 100 yards of him.

The management of most trapshooting clubs provide fines for the infraction of certain rules relative to the loading and unloading of shotguns. A second offense usually means expulsion from the club membership.

Dr. Robert E. Conklin, writing in The New York Medical Journal says that 315 lives were sacrificed on the fields of athletic endeavor in the first years from 1905 to 1915, inclusive. Not one death is attributed to trapshooting, but there has not been an accident in the quarter century history of trapshooting.

Conklin's statement gives to this statement the more remarkable it is. Twenty five years of trapshooting and not one death? It is a fact. With millions of shots being fired at the clay targets each year you would think that something would go wrong some time—but it is safely first at all times at gun clubs.

During the last four years 20,487,670 shots were fired in the tournaments of the International Association, and fully that many more were fired in club events. That means that more than 10,000,000 shots were fired in each of the last four years—which you will admit is quite a few—and not an accident. All of which causes us to make the assertion that trapshooting is the safest of all sports.

A movement was begun recently to secure the adoption of a uniform set of regulations by the trapshooting clubs with the thought of confining the mar-

SPORT SHRAPNEL

TAKING four out of six games,
Jawn McGraw's Giants prac-
tically decided the National
league race during the past three
days, that is as far as a sport, by
the Quakers is concerned. Unable
to hold back the sensational Gotham-
ites the Moran team won but two
games out of six played, and placed
themselves even farther back in the
rank than at the beginning of the
series when they were eight full
games behind the New Yorkers, and
with a much better fighting chance.

Today it is ten games behind, and has one chance in a hundred, and it can be reckoned as phenomenal a comeback if it comes out the McGraw team during the latter days of the season which closes on October 4.

That the declaration of war put a crimp into baseball is no longer a myth but is an established fact. Through the vast amounts paid for the league players, during the past four months, in the Texas circuit it is estimated that every owner of a baseball team has been hard hit, and will require some mighty good crowds during the early part of next season to recuperate.

The Western league doubtless experienced the hardest blow of the three circuits, as it was found necessary to cut the schedule to two halves, and begin over again in order to hold interest in the game.

ARMY PRODUCES
MANY CRACKSUncle Sam's Army Is to
Be Watched for Great
Athletes This Fall.

By the time January 1 rolls around and the new year is born many of the leading stars in all branches of sports will be with Uncle Sam's army somewhere in France. Bull players, boxers, tennis and golf players, football stars and the leading lights of track and field will all be represented on the firing line.

Ang with so many years of the sport world abroad the public will take more interest in them for, instead of battling on track and field, the diamond, the tennis court or the golf links, the stalwart sons of the U. S. A. will be battling on foreign fields in the great game of the age—the game of war.

News from the front will be eagerly devoured by the big sport-loving public, and indications are that the war news will take precedence over the doings of our athletes who remain behind.

CARPENTER TO
ARRIVE IN U. S.

French Champion Will
Soon Be Here in Inter-
est of Nation.

New York, Sept. 8.—George Carpenter, the famous French boxer, who is scheduled to be in this country this week, is mentioned in all kinds of battles with fighters, especially in a championship match with Jess Willard. These reports are without the slightest foundation, for the French government gave it out some time ago that if Carpenter came over here it would be to encourage American boxing and to give demonstrations in flying, at which he has become an expert since the beginning of the war.

Mike Gibbons, the St. Paul phantom, has offered to double up with Carpenter and give a series of forty exhibitions during the entire stay of the French champion in this country. The benefit of the Red Cross fund, but the chances are that no such tour will be arranged unless it shows that with the Frenchman's exhibitions of aerial work.

As a match with Willard at this time, it is out of the question. Carpenter has not kept up with his boxing regularly and it would require three months' time to get him in proper shape for a match of that kind and then again, it would be a poor spectacle for George, unless it shows that he is a much better fighter than he is.

COACH FOLWELL
TO BE ON JOBWill Be Only Paid Foot-
ball Coach at Franklin
Field.

Philadelphia, Pa., Sept. 8.—Bob Folwell will be the only paid football coach at Franklin Field this fall. This was decided at a recent meeting of the University of Pennsylvania athletic council, as a wartime measure to cut down expenses.

"By" Dickson and Dr. M. H. M. Wharton, who assisted Folwell last season to coach the Scott high school at Toledo, Ohio, and Dr. Wharton expects to be too busy in return. So new men will be named in their places.

The plan also includes the dropping of Leon Jourdet, the Freshman coach. Jourdet does any coaching it will be without pay. It was announced some time ago that Jourdet would return, but it now develops that he was not offered a contract because of the war.

CURED AT 81

A well known gentleman who has lived at Marfa, Texas, for forty-six years, a man eighty-one years of age, a man whose veracity can be depended upon, a man loved and honored in his community, desires to vouch for the truth of our newspaper announcements and requests that we publish his letter.

Here it is:

Dr. Ketchersid, El Paso, Texas.

Dear Doctor:

I am so well pleased with the treatment that you gave me for my PILES and am feeling so much better than I have felt for years that I wish to tell you and especially the public about it.

I suffered with this trouble for nearly fifty years and during the last twenty-five years was often kept away from my work on account of them. I tried everything I could hear of with nothing more than temporary relief resulting. The first treatment you gave me stopped all pain, protrusion and bleeding and six completed my cure.

I feel grateful for the relief I have experienced and will be pleased to tell any sufferer about my case and the easy painless method you employ.

Sincerely yours,
G. H. FERRINE.

This is merely one of hundreds of such letters on file in my office, originals of which can be seen at my time.

PLEASE CONSIDER THE FOLLOWING ADVANTAGES OF OUR CURE:
NO KNIFE—NO CAUSTIC—PAINLESS—SURE—SAFE.
PATIENT NOT DETAINED FROM WORK OR DUTIES.
NO BLEEDING OR SLOUGHING—NO INJURIOUS AFTER-EFFECT.
RELIEF AFTER THE VERY FIRST TREATMENT.
FROM ONE TO FIVE TREATMENTS COMPLETE THE CURE.
VERY MODERATE FEES—NO HOSPITAL EXPENSES.

Write for our new revised booklet on Rectal diseases and their treatment. It will be sent in plain sealed envelope free of charge and without obligation.

We have had 18 years' experience and treat successfully all Rectal and Chronic Diseases, and our offices are the largest and best equipped in the country, having every known facility for the treatment of all diseases of which we make a specialty.

X-RAY EXAMINATION FREE.
CONSULTATION FREE.
Office Hours—9 a. m. to 7 p. m., Sundays 10 to 1 p. m. and by appointment.
